

SOL*360 Risk Assessment Readme

Thank you for using the **SOL*360 Cyber Risk Assessment Toolkit**. This guide outlines the steps needed to complete your assessment and prepare for your strategic review meeting.

1. Review the Instructions

Open the PowerPoint file **Sol360_Risk_Assessment_Guide.pptx**. It contains the SOL*360 scoring framework based on Likelihood and Impact, consistent with the visual and layout style used in the Attack Simulation Guide.

2. Enter Likelihood & Impact Scores

Navigate to the **Risks** tab in your workbook. For each category, enter:

Likelihood (1–5) — probability the risk may occur.

Impact (1–5) — degree of business impact if the event occurs.

3. Schedule a Review with SOL*360

Once you finish entering your values, schedule a working session using the link below:
